PFtrack.com (pronounced "Pftrack") is a comprehensive, web-based system designed for people who want to track PC software on their computers. PFtrack.com can help you keep track of new PC software, remove software you don't need anymore, locate rogue programs and, most importantly, remove potential security threats that may affect your PC. The PFtrack.com website is designed to be a user-friendly environment that is easy to navigate and understand, regardless of your technical background. It is divided into a number of intuitive and easy-to-use sections. The sections contain FAQs, an "About Us" page, a page with an overview of the PFtrack.com process, as well as instructions for beginners. The "Actions" section allows you to see your PFtrack.com history and purge rogue software (and applications). The "Help" section is accessible with a simple search on the website. PFtrack.com is free to use; all the features that you will use are free of charge. PFtrack.com is not a virus or spyware removal program. Please be aware that if you download a rogue application from the Internet, you run the risk of downloading a virus or malware program that may destroy your files or change your system settings without your knowledge. How to use PFtrack.com: 1. Start the PFtrack.com web browser. PFtrack.com should open automatically. 2. If it doesn't open automatically, use the links on the website to open it. 3. If you do not have Internet Explorer or Chrome, click here for a link to another browser. 4. Click "Start the PFtrack.com process" and PFtrack.com will start automatically. 5. Log in to PFtrack.com. Enter your account information in the required fields and click "Log in". You can log in using an e-mail address, a nickname, or your Facebook or Twitter account. 6.
